

SILVER FOREST

ACTION WE ARE TAKING AROUND THE COVID19 OUTBREAK

Dear Silver Forest Guest,

As we are a professional food, beverage, and spa facility we have always had a very high standard of hygiene in place at Silver Forest. However, due to the growing public health risk surrounding Covid-19 (Coronavirus) we have intensified our efforts around best practises for virus prevention.

We have implemented the following addition steps to ensure the health of our guests and employees:

- * All guests will be requested to sanitise their hands on arrival
- * All surfaces, tables, handles and any area that comes into contact with the public will be sanitised on a more regularly basis and after every guest departs
- * We have reduced the capacity of 'The Eatery' which allows a 2m distances between tables
- * Sanitiser is available in all rest rooms, at the bar, in kitchen and in all staff areas
- * All items that come into contact with guests or staff are being sanitised regularly
- * Our guests at the 'The Spa' are encouraged to change in their treatment rooms
- * Masks will be worn by our Spa Therapists during treatments in addition to our high standard of hygiene protocols

ON A POSITIVE EXCITING NOTE...

A crisis like this can bankrupt small hospitality businesses like ours and we are taking on the challenge in a positive light of change - please support us during this difficult time.

Home Delivery Meals & other items

We are launching a new menu for 'The Eatery' that will focus on dishes that are perfectly suited for home delivery too. This menu will be available to order and can be delivered by our own staff directly to your home or place of work as well as being available at 'The Eatery'.

We are also offering a list of other items we believe may be valued for home delivery at prices to compete with you usual shopping... but with the convenience of home delivery

Home Spa Services

Our Therapists are available to come to your home or office to offer spa treatments including manicures, pedicures, massages during stressful times.

We know these services could be invaluable to help with increased stress levels.

Please leave your email and home address and cell number to register for this new service.

Let's all UNITE and support each other locally during this difficult time
